GERMAIN'S PREMIUM FLOWER SEEDS

California's Best

Spring 1934

On pages 3 to 6 of the present edition of our Florists' catalogue we were able to include a number of new and outstanding varieties which will prove of the greatest interest to growers. We wish especially to call to your attention the new Calendula Chrysantha (illustrated on front cover), the new Los Angeles Aster, Annual Canterbury Bells, Double Poppy Sweet Briar, New Giant Lupins and Double Coreopsis, all of which are a part of the ALL AMERICAN NOVELTIES selections for 1934.

Our Down Town store at 6th and Main, Los Angeles, is the headquarters for garden lovers from all over the world. You are always welcome to visit our store which, we have been told, is the most interesting of its kind in America.

Throughout this listing we have paid the closest attention to the high quality of the seeds we offer.

Our close proximity to the great seed growing centers of California, where over 90% of America's Flower seeds are grown, places us in a most advantageous position to select for you the most highly improved strains and specialties, since our information is gained by personal observation in the growing fields.

You may be assured, therefore, that the seeds we offer are unsurpassed and that our perfected strains of Sweet Peas, Stocks, Zinnias, Asters, Larkspurs, Marigolds and all other California specialties are unrivalled anywhere.

We take this occasion to thank our many customers in the trade for their liberal patronage and to express our sincere appreciation for the orders entrusted to our care.

We shall spare no effort to maintain our high standards of quality, dependability and service.

NOVELTIES AND SPECIALTIES OF RECENT INTRODUCTION

NEW ASTER—SUPER GIANT LOS ANGELES

This is the first of a new giant race of Asters. It is of the general habit of the giants of California, but earlier and much larger than any of the giants of California type yet introduced. But, while the flowers are large, they are most artistic due to the unusual curling and interlacing of the petals, giving a light feathery effect.

The stems are stronger than in the California giants, and unusually long. No disbudding is necessary due to the non-lateral habit.

This new race promises to supersede all other giant strains for cut flower use. Until then we strongly recommend its use in connection with the giants, since its color is new and entirely lacking in the giant strain. It is a pure shell pink, clear and charming in tone, and especially effective when cut. $\frac{1}{4}$ oz. \$1.00; oz. \$2.75; $\frac{1}{4}$ lb. \$12.50.

FORCING STOCKS

California's Incomparable Strain

After the "trial of stocks" conducted by The Royal Horticultural Society of Great Britain at Wisely, England. This strain was awarded five "Awards of merit" and eight "Highly commended" on the varieties sent for trial. They are without question.

"The World's Best Double Stocks."

Conclusive tests have also demonstrated that California grown stocks bloom at least two weeks earlier than foreign strains.

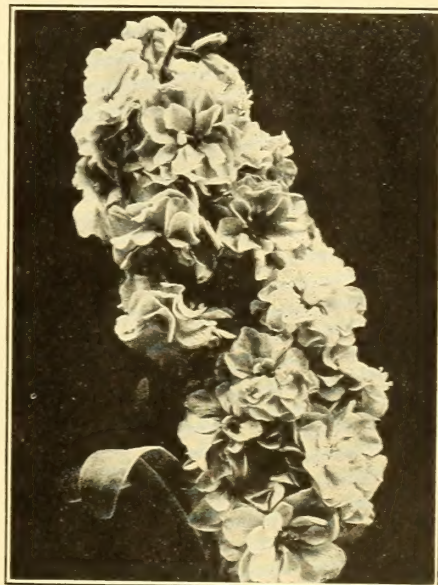

EARLY GIANT IMPERIAL (Improved Bismarck)

This beautiful strain is now generally regarded as the most satisfactory for the flower grower. A trifle earlier than other forcing strains, it produces its fine flower spikes on long stems in all the desirable florists' shades. The most popular being Rose, Lavender, Lilac, Chamois, Golden and White.

NOVELTIES--- RECENT INTRODUCTIONS AND SPECIALTIES FOR FLORISTS AND NURSERYMEN

NEW ASTER

California Sunshine

This new Aster is strikingly different from all others. A double row of gracefully curled outer petals is supplemented by a raised center of dainty quilled petals often of a contrasting shade. This produces many charming and unlooked for color combinations and adds much to the attractiveness of the strain. It is very free flowering and we predict for it a great future as a cut flower variety.

We have followed with intense interest the work which has been carried on over a period of years to produce a strain of asters resistant to stem rot or wilt. The results have been beyond all expectations. The varieties listed below have been tested in all parts of the country and in thoroughly infected soil their resistance runs from 75% to 95% as compared with almost total failures with ordinary strains. The small additional cost is therefore more than justified and it is safe to predict that in the near future "wilt" asters only will be used by the florist.

GERMAIN'S MODERN FLORISTS' PANSIES

GERMAIN'S SWISS GIANT STRAIN

The Swiss Giant Pansies have gained renown throughout America as well as in Europe. They are of exceptional size, borne on tall, sturdy stems and very free flowering. We take pleasure in offering three beautiful separate colors of this remarkable strain.

- 3530 Swiss Giant Dark Blue. $\frac{1}{16}$ oz. \$1.00; $\frac{1}{4}$ oz. \$3.00; oz. \$10.00.
- 3533 Swiss Giant Golden Yellow. $\frac{1}{16}$ oz. \$1.00; $\frac{1}{4}$ oz. \$3.00; oz. \$10.00.
- 3534 Swiss Giant Red. $\frac{1}{16}$ oz. \$1.00; $\frac{1}{4}$ oz. \$3.00; oz. \$10.00.
- 3537 Swiss Giants Mixed. The largest and most remarkable of all European strains. The flowers as well as the plants develop to immense size. Colors rich in red and art shades, many beautifully marked. $\frac{1}{16}$ oz. 75c; oz. \$8.50.
- 3548 Pacific Giant Swiss. There is a strong demand among American florists for a Swiss type pansy strain which includes the brilliant, lighter shades demanded by the American public as well as the deeper reds and blues of the Swiss. It is therefore with much satisfaction that we introduce our Pacific Giant Swiss strain. It is of Swiss type and habit with exceptionally large flowers, carried high on good stems and in an incomparable range of colors. $\frac{1}{16}$ oz. \$1.00; $\frac{1}{8}$ oz. \$1.70; $\frac{1}{4}$ oz. \$3.00; oz. \$10.00.
- 3535 Germain's Extra Special. This is the strain used at our nurseries to produce many thousands of pansy plants annually sold at our store. Of all the large flowering types this has proved most consistently satisfactory under Southern California conditions. $\frac{1}{16}$ oz. \$1.00; oz. \$15.00; $\frac{1}{4}$ lb. \$55.00.

FLORISTS' STOCKS

Our California grown stock seed may be absolutely depended upon to produce a high percentage of doubles and to come true to type and color. The Early Giant Imperials are perhaps a trifle earlier than the Winter Nice type, but both are in good demand with the grower. The Perpetual Branching or Giant Perfection Strain also is a valuable group, producing fine tall spikes and is of strong branching habit.

Zinnia Haageana Double

GERMAIN'S GIANT CALIFORNIA ZINNIAS

Germain's Strain of California Zinnias are the highest quality obtainable. Grown in California under our special care and supervision, we can recommend them to florists everywhere with absolute confidence. The California Giant Type while a trifle less expensive is fully as popular with florists as the Dahlia Flowered. Both are of the largest size and remarkably fine cut flowers.

SWEET PEAS EARLY OR WINTER FLOWERING VARIETIES

NEW FORCING SWEET PEAS

4234 **Lavanda.** A pure, clear lavender, impressing one with the fact that at last we really have a pure lavender Sweet Pea. The blossoms of LAVANDA are extremely large and waved, perfectly spaced on long stout stems. Four blossoms on each stem of course, and highly perfumed. Price per oz. \$1.50; per ¼ lb. \$5.00; per lb. \$18.00.

4230 **Exposition Pink** (Named in honor of "A Century of Progress" Exposition in Chicago). EXPOSITION PINK can best be described as a gorgeous rich pink, rather resembling the color of the well known Ivy Leaf Geranium "Charles Turner" but a trifle lighter. The stems are long and stout and the plant extremely prolific. Price per oz. \$1.50; per ¼ lb. \$5.00; per lb. \$18.00.

4203 **Annie Laurie.** Probably the richest tone of pure rose pink to date, long stems and four flowers to a stem; very free flowering. Lb. \$12.50; per oz. \$1.25; per ¼ lb. \$3.75.
